

## Clark Forklift

Presently, there are no less than 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 particular items designed for 20 exclusive brands of lift trucks and automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most impressive supplier support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a standard feature on every forklift.

Clark's recurrent mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck maker across the world to be certified with the internationally approved quality standard ISO 9001 for all of their production facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a dominant market position.

### Resource Efficient Production

Clark has chosen the particularly economical and beneficial system of "Lean Production" for its assembly facilities and use of resources. This structure was established to acknowledge the most effective method of manufacturing plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

### Engineering

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The contemporary value engineering program combines innovative product improvement and delivers improved client support and service within the industry.
