Grande Prairie Order Picker License

Grande Prairie Order Picker License - Order picking is likewise referred to as order preparation operation. This is amongst the key processes in a warehouse and consists of people called order pickers, taking and collecting articles in a specific quantity previous to shipment to be able to complete client orders. Order picking is a simple warehousing method. The efficiency in which this job is done could be directly linked to a supply chain's productivity. Therefore, order picking is amongst the most controlled logistic processes. Order picking falls within the category of the warehouse management system.

There are particular types of order picking which include: pick to box method, wave picking method, picker to part method or piece picking, sorting systems method and zone picking method.

The pick to box method comprises the order picker filling the box with the stuff from her or his station. The box then moves to the other picking locations until the customer order is done. In this process, there is no movement of the order picker staff. In the wave picking method, the order pickers move all-around to collect the necessary products for numerous orders. The picker to part method or piece picking is similar where the order pickers or picker move to gather the items required but for one order only.

In the sorting systems method, there is no movement of the order picking employees. Instead, the things are brought to him or her through an automated system like for instance automatic storage or a conveyor system. In the zone picking method, each order picker is assigned to one specific zone. They are responsible for only realizing order picking within this specific area.
